INTRODUCTION

The Indian Industry is the largest among all the industries, accounting for over 10 per cent of the country's GDP and round 8 per cent of the employment. The Retail Industry in India has come forth as one the most dynamic and fast paced industries with several players entering the market. Bazaar Store is a place where you can find everything for your home to grocery items to the electronic items and clothes also.

EXISTING SYSTEM

In present scenario online shopping is in craze. Mostly people are working they want things then and there. We can buy things which we want and can simply return with 'Return Policy', it saves time. Moreover, this system is designed to provide ease to customer to buy online things. No formal or technical knowledge is needed by the user to use this platform.

USE OF THE PROJECT

- Bazaar Store's core concept is to create a blend of a typical Indian Bazaar and International supermarket atmosphere with the objective of giving the customer all the advantages of Quality, Range and Price associated with large format stores and also the comfort to See, Touch and Feel the products.
- Bazaar Store will provide quality items but at an affordable price. It is a very innovative idea and this online hypermarket has almost anything under one roof…. Apparel, Footwear, Toys, Household Appliances and more.

FEASIBILITY OF PROJECT

- The ambience and customer care adds on to the shopping experience.
- They will have a considerable success in many Indian cities and small towns. Bazaar Store provides quality items but at an affordable price.
- At Bazaar Store, you will get: A wide range of products at 6 to 60 % lower than the corresponding market price, coupled with an international shopping experience.
